NGUYEN ANH TUAN

Fresher Front-End

OBJECTIVE

I'm seeking a competitive and challenging environment where I can serve and establish a career for myself. So if I could be a part of a large firm like yours, it would be a good opportunity to expand my skills and knowledge. Finally, I hope with my limited ability I can contribute something in the growth of your company even it is small. I want to become a professional Front-End Developer and create beautiful interface pages that impress users.
